

The background is a light pink color. It features several abstract shapes: a large, irregular light blue shape in the center, a large orange shape in the top right corner, and a pink shape in the bottom left corner. Scattered throughout are various decorative elements: orange and blue star-like shapes, small purple circles, and a cluster of orange dots in the top right. A dotted line separates the pink shape from the rest of the page.

THE BASICS OF PAINTING

1

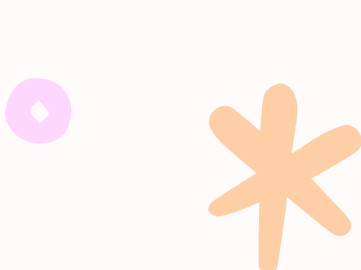

3 COATS

To achieve bright and long-lasting colours, it is important to paint at least 3 coats.

LET IT DRY

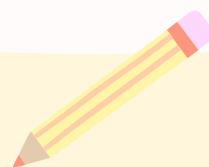

Allow each coat to dry completely, before adding additional coats!

2

3

PENCIL

You can use a pencil to create your designs before applying paint. The pencil marks disappear once the piece is fired in our kiln!

LEAVE BLANK

You can paint the entire piece, except for the parts that are in contact with the table!

4

SIGN IT AND TAKE A PHOTO

When you're done, put your name and the date on the piece. For example, at the bottom. Remember to take a picture to show us which piece is yours when you come to pick it up!

5

6

SHAKE THE PAINTS!

Before you start painting, shake the paints well so that they mix well and thus you get a better finish!

CAREFUL WITH THE COLORS

You have to take into account the color tone when painting. If you want to paint details on a dark background, it is important to put many layers of the light color, or leave the space white.

7

DO YOU WANT
TO TRY
A TECHNIQUE?

TAPE

Cut the pieces of tape you want with scissors, as long and thin as you need.

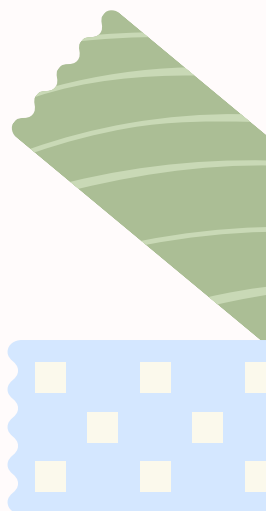

1

Stick them onto the piece forming the design you want.

2

Paint, and once the paint is almost dry, remove the tape!

3

SPONGES

1

Choose the sponge, there are various sizes and shapes.

Dip the sponge into the paint and apply to the piece.

2

3

Remember that you can apply more or less paint, or blur it to achieve different effects.

1

Put a little of the paint you want on the brush. We recommend using a flat brush.

Use your fingers or another brush to scrape your brush and make paint splatter onto the piece.

2

3

Keep in mind that if you use a light base, you should use darker colors, and with a dark base, light colors that contrast with the background.

STAMPS

Select a stamp and the colours that you want to use.

1

2

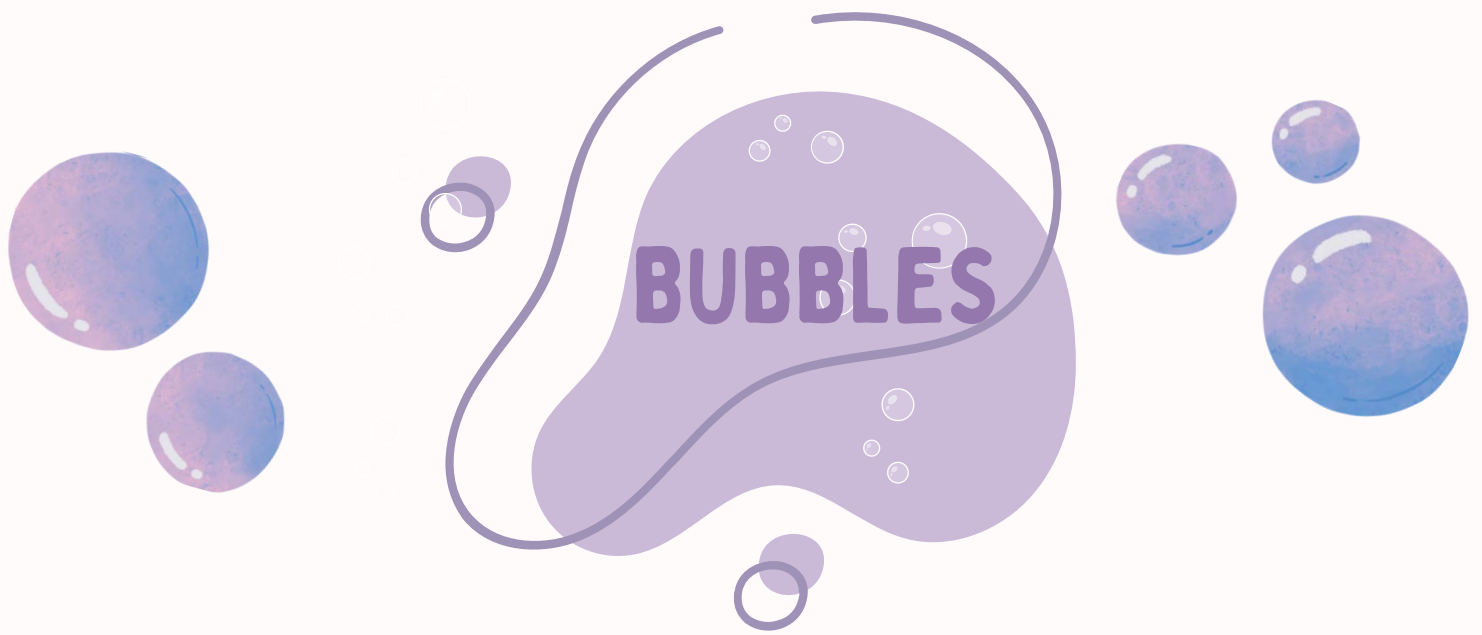

Make a very thin layer of paint on the palette and press the stamp on this layer.

Choose the space where you will place the stamp on your piece, and press it there lightly for a few seconds.

3

* ¡Puedes utilizar la cinta de guía, para poner los sellos rectos, si lo deseas!

1

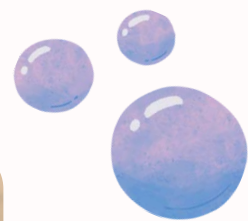

Choose a light color for the background of your piece, and another to create the effect.

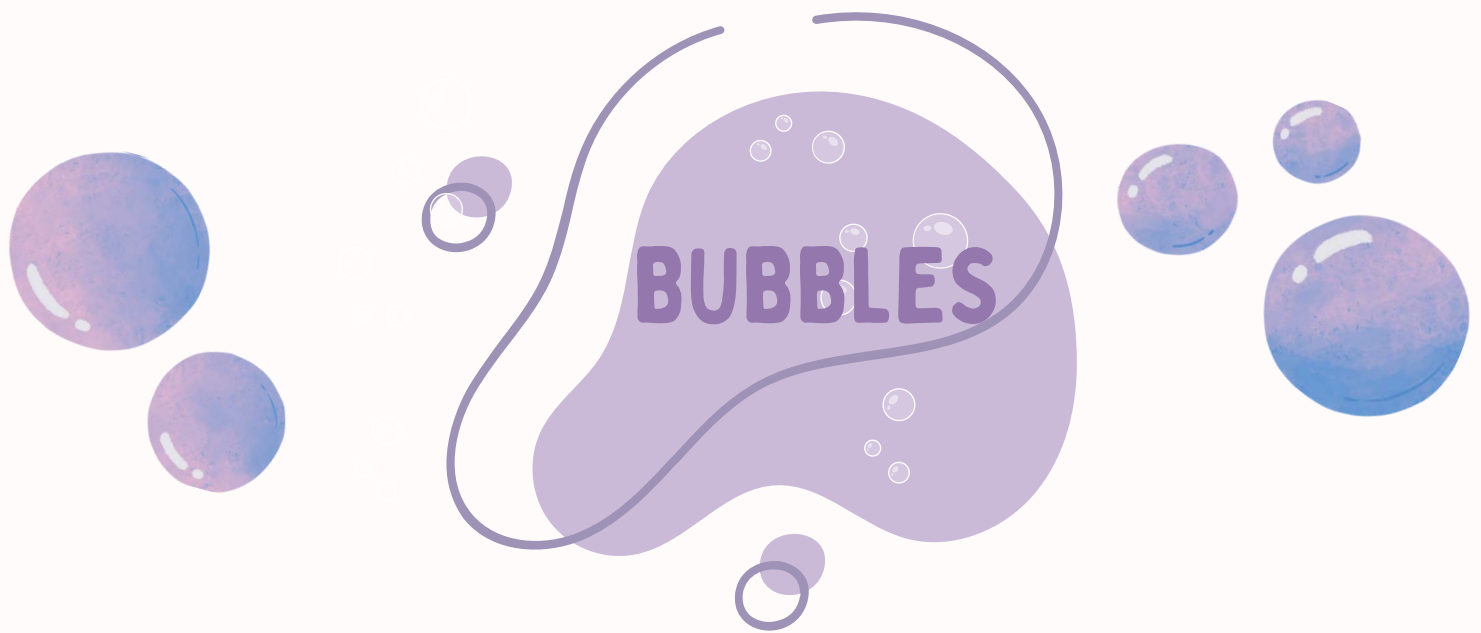

Mix a little water, paint and a drop of soap in a small glass.

2

3

Using a straw, start blowing until bubbles come out of the plastic cup and fall onto your piece. Let them come out and fall on their own!

1

Choose a light color for the background of your piece, and another to create the effect.

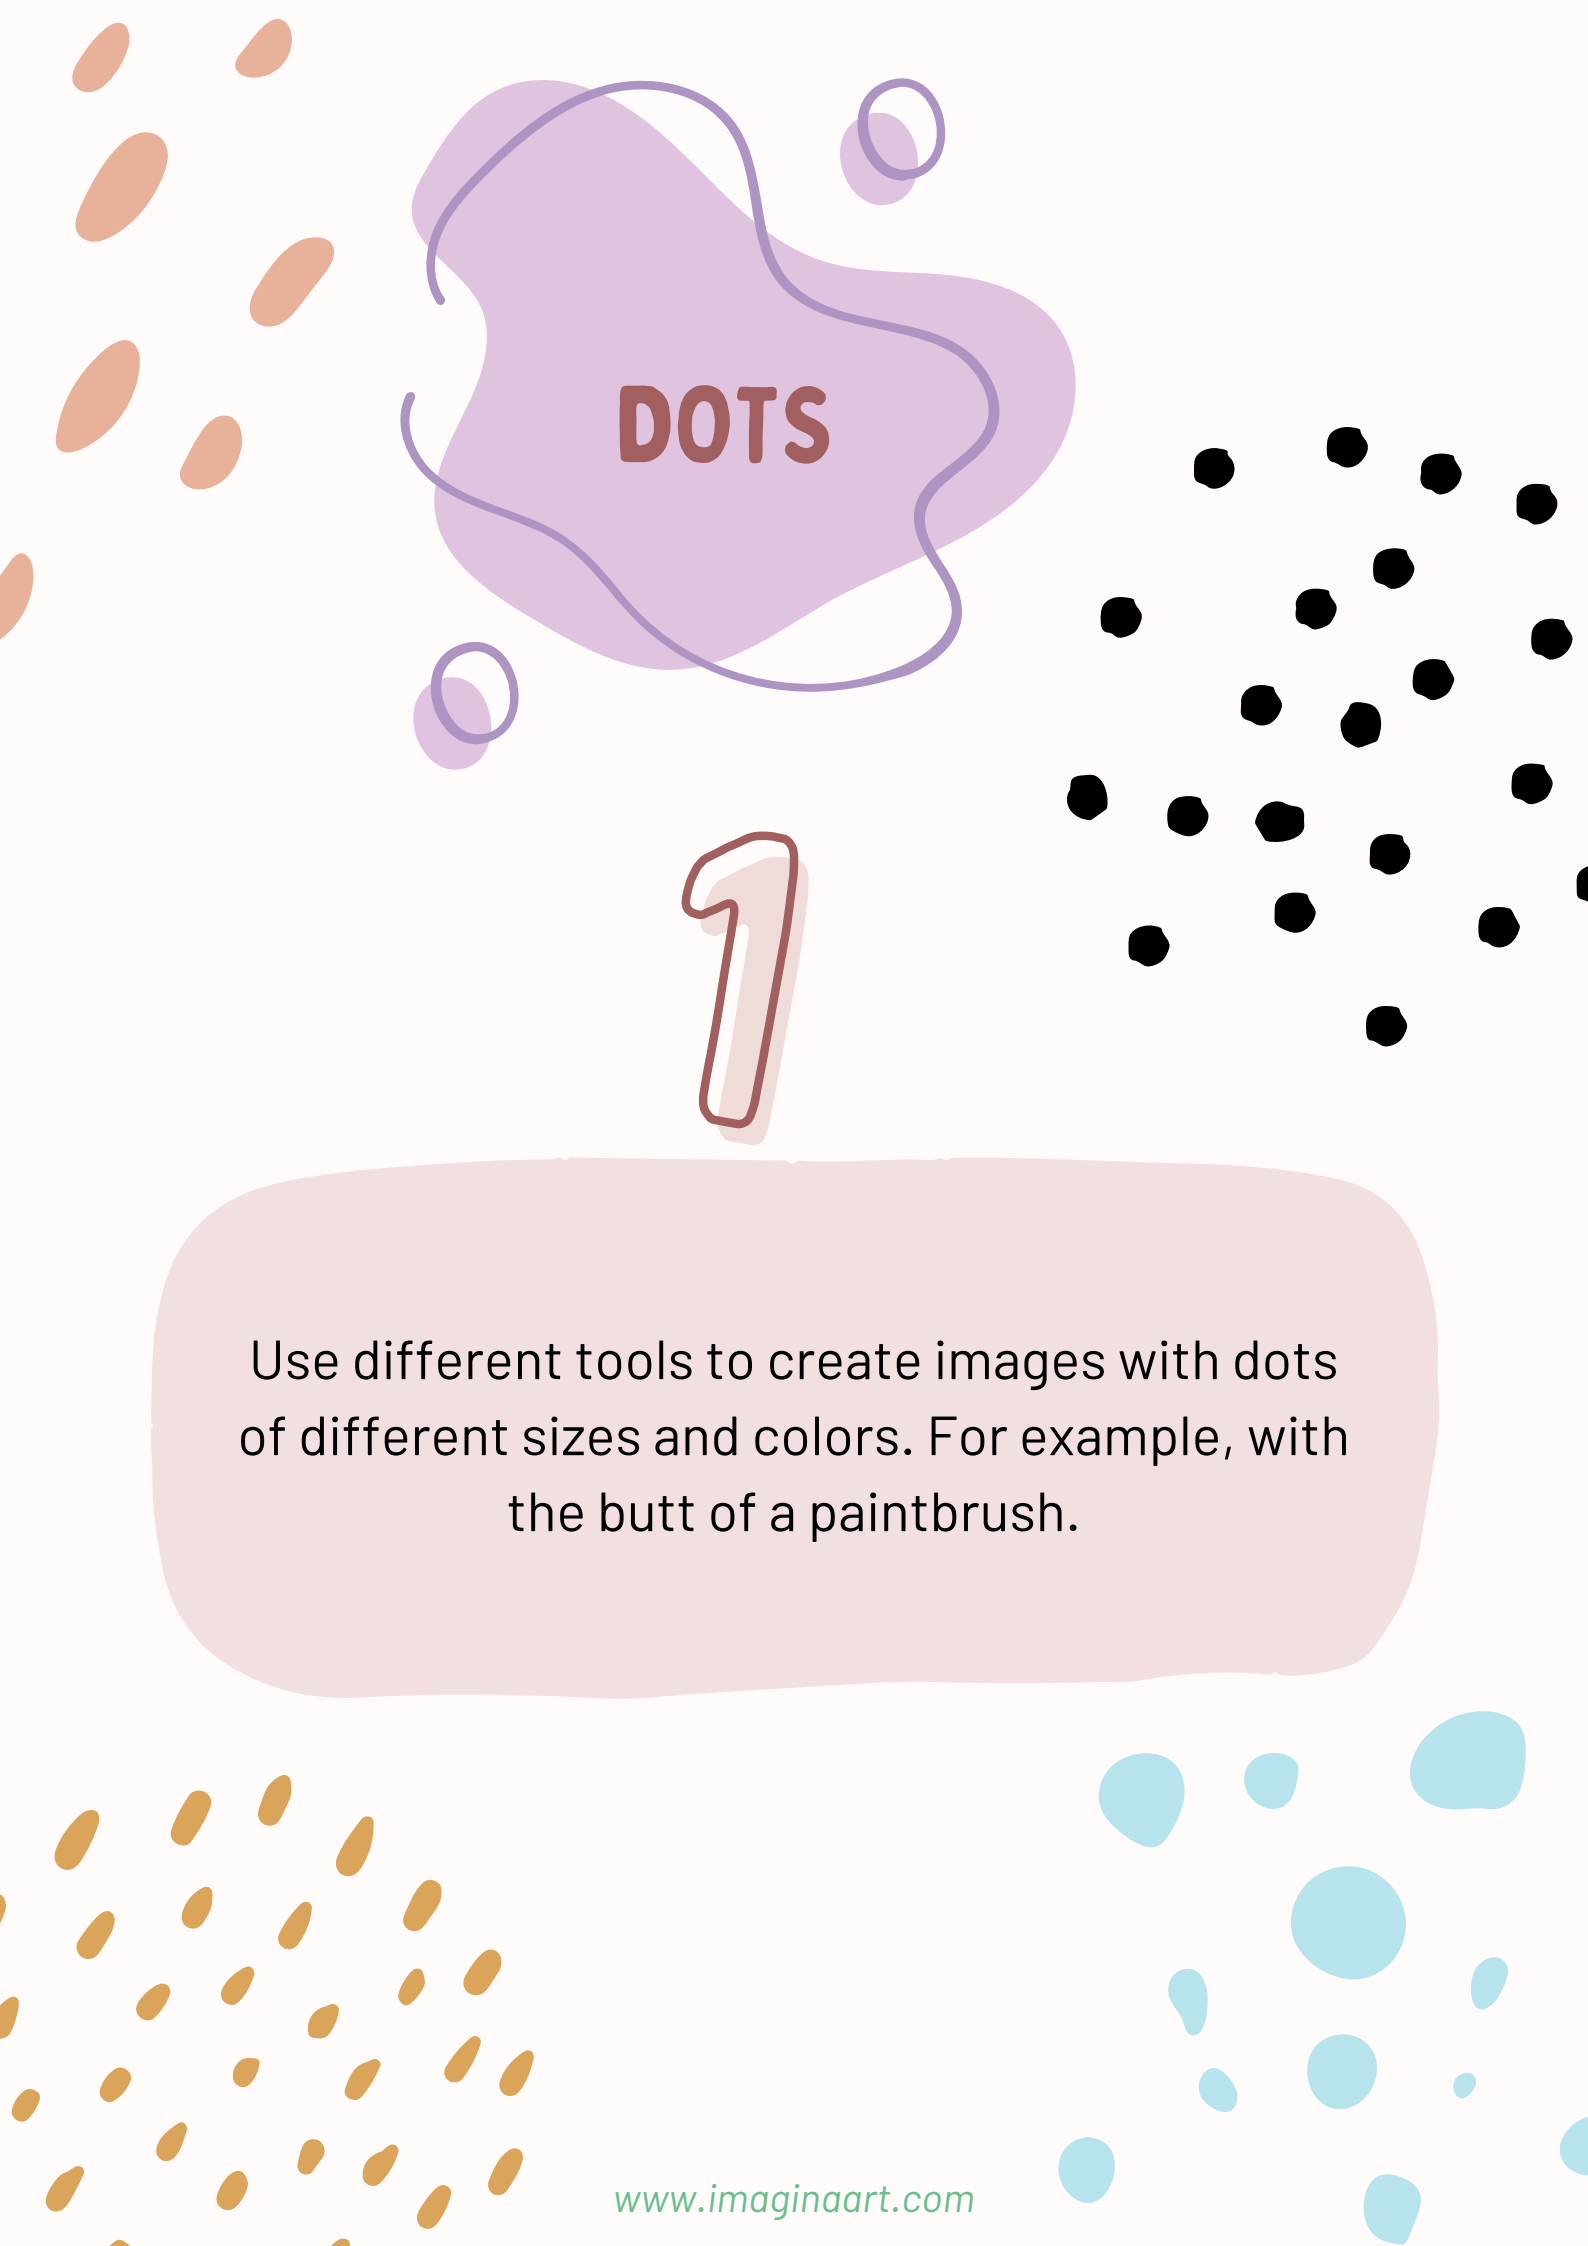

Mix a little water, paint and a drop of soap in a small glass.

2

3

With the small plastic bottles, wet the tip and squeeze the bottle until bubbles come out, and carefully place them.

DOTS

1

Use different tools to create images with dots of different sizes and colors. For example, with the butt of a paintbrush.

SCRATCHING

1

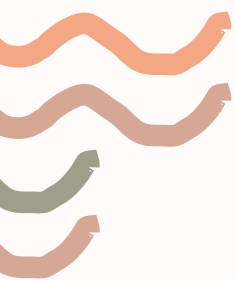

Do the base color layers on your piece, and let it dry.

Once dry, choose another color and paint over it.

2

3

Before the second colour dries, use the butt of the brush to make incisions or scratches in this most superficial layer of colour, forming patterns, so that the base colour layer is exposed.

Cut a piece of string to the length you need, and dip it well in paint.

1

Wrap the string around your piece, and press it a little.

2

Remove the rope, dragging it upwards slightly as you do.

3
